

# Alienware® Area-51® ALX with SLI Technology

## Description

Alienware Area-51 ALX systems featuring SLI Technology leverage a revolutionary approach to combining multiple GPUs in a single system to enable screaming, boundless performance. SLI, or Scalable Link Interface, is a high-performance technology that allows users to intelligently combine and scale graphics performance over multiple NVIDIA GPUs in a single system. SLI works by intelligently scaling geometry and fill rate performance for two GPUs.

## System Features

- NVIDIA® SLI™ Technology with performance up to two times that of competing non-SLI enabled system in next-generation 3D games
- Workstation-class processing power for the ultimate performance in compute-intensive applications such as 3D games and application multi-tasking
- Alienware ALX Silent Liquid Cooling System provides an industry-leading high-performance, low-noise computing environment
- One kilowatt (1000-watt) system power supply for unprecedented system stability
- Up to 8-channel High-Definition sound provided by premium Audigy 2-class audio solutions

## System Overview

- Intel Xeon™ Processor 3.6GHz with EM64T Technology
- Dual NVIDIA® GeForce™ 6800 Ultra PCI Express 256MB DDR3
- 1024MB Dual Channel DDR2 PC-3200 SDRAM 400MHz
- 148GB Western Digital® Raptor™ Serial ATA RAID 0 Array
- Creative Sound Blaster® Audigy® 2 ZS 7.1 HD Audio
- NEC 16x Dual Layer DVD±R/W Recorder
- Microsoft® Windows® XP Professional Service Pack 2

Alienware Area-51 ALX systems with SLI Technology are backed by Alienware's award-winning AlienCare service program with 1-3 year warranty plans including toll-free 24/7 tech support and competitive discounts on system upgrades. The Area-51 ALX line is available direct through 1-800-ALIENWARE (254-3692) or [www.alienware.com](http://www.alienware.com).

\* All Alienware systems are configurable; please visit [www.alienware.com](http://www.alienware.com) for more information.
