

Alienware® Area-51

Description

Alienware's flagship desktop system, the award-winning Area-51 is a custom built, high-performance PC featuring state-of-the-art technology. The Area-51 combines cutting-edge hardware, innovative design, and unprecedented performance to deliver an unparalleled high-performance computing experience.

System Features

- Exclusive Alienware Full-Tower Chassis in a variety of bold, metallic colors
- AlienIce™ Video Cooling System to keep critical system components running at peak performance and with enhanced reliability
- High-performance air intakes to enable high-performance, low-noise thermal management
- Front-accessible USB ports for connectivity to digital cameras, digital camcorders, USB storage devices, game controllers, MP3 players, and more
- Upgradeable architecture allowing customers to extend the life of their system far into the future
- Hand-built and performance tuned to enable the highest possible system performance
- AlienCare Service Program including 24/7 tech support, discounts on system upgrades, and more
