

Alienware® DHS™ 5 Series

Description

The Alienware DHS 5 series of media center systems bring the latest in audio and video content-management technology to your entire home. The DHS 5 series features Microsoft® Windows® XP Media Center Edition 2005, which integrates functionality of individual A/V components into a single unit, complete with a common user interface and remote control. Alienware's line offers an innovative multimedia package feature in an A/V horizontal form factor with an ultra-quiet chassis that fits easily into any home entertainment center.

System Features

- Ability to store, playback, and burn CD's and DVD's
- Organize digital photos
- Works similar to TiVo® and Replay® Digital Video Recorders
- Play and record live FM radio broadcasts
- Play the latest computer games using DISCover Console Technology
- Download movies and music tracks on-demand
- Supports Microsoft's Media Center Extenders that stream your media center content to any room with a Media Center Extender

System Overview*

- AMD Athlon™ 64 3000+ Processor
- Microsoft® Windows® XP Media Center Edition 2005
- 512MB Dual Channel DDR PC-3200 SDRAM 400MHz
