

# Alienware® Roswell™ Digital Video Editing Workstations

## Description

The Roswell line of Digital Video production systems follows Alienware's tradition of building the fastest and most reliable systems in the industry. The explosive performance of the dedicated DV

hardware in the Roswell workstation can handle projects ranging from real-time video editing to creating home movies. Alienware Roswell systems offer the highest possible application performance, while delivering rock-solid stability and reliability.

## Alienware Full Tower Chassis Features

- Exclusive Alienware Full Tower chassis in a variety of bold, metallic colors
- High-performance air intake grilles to promote the entry of fresh, cool air
- Unique integrated cable management system provides a simple and effective means of organizing and protecting external device and peripheral cables
- AlienIce Video Cooling System keeps critical system components running at peak performance

## Alienware Workstation Chassis Features

- Optional 4 hard drive hot-swap bay and rackmount module
- High performance – low noise active cooling system
- Unique tool-less design allows for easily upgradeable architecture
- Enables support for extended length PCI cards

## System Features

- Extensive testing and validation with a variety of leading-edge video editing and production applications from companies such as Adobe, Ulead, and more
- Certified for high-performance video editing hardware like Matrox, Canopus, Pinnacle and more
- Up to 1.6TB of storage for large video files and libraries
- Thermal management solutions designed to optimize system operating temperatures
- AlienCare Service Program including 24/7 tech support, discounts on system upgrades, and more
- Front-accessible USB ports for connectivity to digital cameras, camcorders, USB storage devices, MP3 players and more
- Quick-release hard drive cages allow for quick and easy installation of new or replacement drives
- Upgradeable chassis architecture allows customers to extend the life of their system far into the future

## System Overview\*

- Dual or Single Processors – Supporting Intel® or AMD
- Intel® Pentium® 4, Dual Intel® Xeon™, or AMD Opteron™
- Up to 4GB system memory
- ATI®, NVIDIA® and 3DLABS graphics cards
- Many different video production and editing software applications available pre-installed
- Matrox DV Editing hardware available

# Alienware® Roswell™ Digital Video Editing Workstations

Alienware Roswell DV systems are backed by Alienware's award-winning AlienCare service program with 1-3 year warranty plans including toll-free 24/7 tech support and competitive discounts on system upgrades. Roswell DV systems are available direct through 1-800-ALIENWARE (254-3692) or [www.alienware.com](http://www.alienware.com).

*\* All Alienware systems are configurable; please visit [www.alienware.com](http://www.alienware.com) for more information.*
